# Alice in Dixieland

What is Alice in Dixieland? The answer is easy. Alice in Dixieland is charm, chic, delicacy and strength. It's a constellation of musicians who gleefully slalom between swing, mainstream, musical, dixieland and bebop, annexing a universe in which they appear unbeatable, a world of supreme relaxation that unites the voices of the trumpet, trombone, saxophone, piano, bass and drums to create a happy balance. Founded more than 30 years ago, this all-female group brings an marvellous repertoire in neatly crafted arrangements, with attractively scored backing figures behind and between the solos and vocals.

Beside their impeccable instrument control (all members are conservatory schooled) the musicians display their vocal qualities. That's why the close-harmony vocals are one of the high features of the band.

How to resist to these complex polyrhythms, this prodigious range of musical diversity, this amazing energy? Unthinkable! From the Azores to Northern Finland, from Schotland to Poland, from Tunesia to Salzburg, Alice has treated the audience to inspired soloing, sparkling close-harmony vocals, splattering horn collectives and a sympathetic stage performance.
